Sales Dashboard - Internship Task 8

This report summarizes the interactive sales dashboard created in Power BI. The dashboard visualizes sales performance by **Product Category**, **Region**, and **Month-Year**. It includes a Line Chart, Bar Chart, Donut Chart, and interactive slicers for filtering by Region.

Key Insights

1. West Region showed the highest sales overall, especially in Q3.

2. Technology Category contributed the largest portion of total sales compared to Furniture and Office Supplies.

3. Monthly Sales displayed a steady growth trend over the year.

4. South Region had the lowest sales but showed improvement towards year-end.
